FERTILITY TREATMENTS

PRE TREATMENT

Medical Consultation	£250
Nurse Planning	£200
Baseline ultrasound scan of uterus and ovaries	included
Female Hormone Profile (if required)	£180
HIV, Hep B antibodies, Hep B antigen, Hep C blood test	£125 per patient
Semen Analysis (if required)	£150

Additional blood tests may be required. If recent results are available, some investigations may not need to be repeated.

IVF & ICSI TREATMENT

IVF cycle	£3,600
✓ Includes scans, blood test, egg collection under sedation, embryo transfer, pregnancy scan, follow up consultation and first counselling session	
Advanced Embryology (on all cycles)	£550
✓ Closed culture incubation	
✓ Embryo glue	
✓ Blastocyst culture of embryos to day 5	
ICSI (if required)	£1,200
HFEA Fee	£80

Does not include drugs (approx. £550 - £2000).

FERTILITY PRESERVATION

EGG FREEZING TREATMENT

Egg freezing cycle	£3,500
✓ Includes scans, blood test, egg collection under sedation, egg freezing, 1 year storage, follow up consultation and first counselling session	

Does not include drugs (approx. £550 - £2000).

IVF & ICSI FREEZE ALL TREATMENT

IVF cycle - No transfer	£3,200
✓ Includes scans, blood test, egg collection under sedation, cryopreservation, 1 year storage, follow up consultation and first counselling session	
Advanced Embryology (on all cycles)	£550
✓ Closed culture incubation	
✓ Blastocyst culture of embryos to day 5	
ICSI (if required)	£1,200

Does not include drugs (approx. £550 - £2000) or subsequent FER cycles.

CRYOPRESERVATION CHARGES

Embryo freezing (per treatment - included in fertility preservation treatments above)	£500
Sperm freezing	£175
Surgical sperm retrieval (SSR) if required - includes sedation	£1,000

STORAGE OF EMBRYOS, EGGS AND SPERM

Annual storage charge	£250
2 years' storage - paid in advance	£400
5 years' storage - paid in advance	£900

FROZEN EMBRYO REPLACEMENT AND EGG THAW

FROZEN EMBRYO REPLACEMENT (FER)

FER cycle **£1,200**

- ✓ Includes scans, thawing embryos, embryo transfer, embryo glue, pregnancy scan or follow up consultation, HFEA fee and first counselling session

Does not include drugs (approx. £550 - £900).

EGG THAW ICSI CYCLE

IVF cycle - Egg thaw **£3,200**

- ✓ Includes scans, blood test, egg thaw, embryo transfer, pregnancy scan, follow up consultation and first counselling session

ICSI (on all cycles) **£1,200**

Advanced Embryology (on all cycles) **£550**

- ✓ Closed culture incubation
- ✓ Embryo glue
- ✓ Blastocyst culture of embryos to day 5

HFEA Fee **£80**

Does not include drugs (approx. £550 - £900).

EGG DONATION

EGG RECIPIENT IVF TREATMENT

Egg recipient cycle with known donor **£6,900**

- ✓ Includes all donor screening, scans, blood test, egg collection under sedation, embryo transfer, pregnancy scan or follow up consultation, and first counselling session for donor and recipient
- ✓ Includes donor-related treatment costs

Advanced Embryology (on all cycles) **£550**

- ✓ Closed culture incubation
- ✓ Embryo glue
- ✓ Blastocyst culture of embryos to day 5

Altruistic donor fee (if applicable) **£1,000**

HFEA fee **£80**

Does not include recipient drugs (approx. £550 - £900) or ICSI if required.

IVF TREATMENT WITH EGG SHARING

IVF cycle **£1,500**

- ✓ Includes scans, blood test, egg collection under sedation, embryo transfer, pregnancy scan, follow up consultation and first counselling session

Advanced Embryology (on all cycles) **£550**

- ✓ Closed culture incubation
- ✓ Embryo glue
- ✓ Blastocyst culture of embryos to day 5

HFEA fee **£80**

Does not include drugs (approx. £550 - £2000) or ICSI if required.

PRE-IMPLANTATION GENETIC SCREENING (PGS)

PGS USING NEXT-GENERATION SEQUENCING (NGS)

PGS with NGS - each sample (1st-4th samples) **£500**

PGS with NGS - each sample thereafter **£200**

- ✓ Includes biopsy procedure
- ✓ Includes sample transportation costs
- ✓ Includes cryopreservation

FLASH PGS (ULTRA-RAPID ANEUPLOIDY DETECTION) Price on application

PGS USING ARRAY CGH Price on application.

PRE-IMPLANTATION GENETIC DIAGNOSIS (PGD)

PGD WITH KARYOMAPPING

PGD Karyomapping for up to 9 samples **£4,500**

- ✓ Includes biopsy procedure
- ✓ Includes sample transportation costs

Additional charge for up to 21 total samples **£1,800**

May require cryopreservation.

PGD FOR CHROMOSOMAL REARRANGEMENTS

PGD for Chromosomal Rearrangements for up to 8 samples **£3,000**

- ✓ Includes biopsy procedure
- ✓ Includes sample transportation costs

Each sample thereafter **£150**

Cryopreservation required.

HLA MATCHING

HLA Matching (with or without mutation detection) for up to 9 samples **£4,500**

- ✓ Includes biopsy procedure
- ✓ Includes sample transportation costs

Additional charge for up to 21 total samples **£1,800**

May require cryopreservation.

PGD USING CONVENTIONAL TECHNOLOGY Price on application

ADDITIONAL SERVICES

FERTILITY ASSESSMENT SCREENING

Fertility Assessment **£575**

- ✓ Includes baseline scan, female hormone profile, AMH, Chlamydia and Gonorrhoea, semen analysis and consultation

INTRA UTERINE INSEMINATION (IUI)

IUI cycle **£750**

- ✓ includes HFEA fee, scans, blood test, preparation of sperm, insemination, pregnancy scan, follow up consultation and first counselling session

Does not include drugs (approx. £300 - £600) or the cost of purchasing donor sperm if required.

OVULATION INDUCTION

Ovulation Induction cycle **£500**

- ✓ Includes scans, blood test, pregnancy scan, follow up consultation and first counselling session

Does not include drugs (approx. £300 - £600).

ADDITIONAL TREATMENTS

Counselling - first session free if on active treatment **£140**

Medical Consultation **£250**

Medical Consultation - including scan **£350**

Medical Consultation - follow-up appointment **£150**

Nurse Planning - for subsequent cycles **£100**

Cyst drainage under sedation **£575**

Embryo transfer under sedation **£350**

Embryo thaw for PGS **£450**

Endometrial scratch **£350**

Administration fee for transport of frozen samples **£200**

ADDITIONAL SCANS

3D saline pelvic ultrasound scan **£400**

Pregnancy scan **£250**

HyCosy **£500**

Follicle or cycle monitoring per scan **£200**

BLOOD TESTS

AMH	£80
FSH	£40
LH	£40
Prolactin	£40
Oestrogen	£40
Progesterone	£60
Female Hormone Profile 1 (FSH, LH, Testosterone, Prolactin, TSH, AMH, E2)	£180
Female Hormone Profile 2 (FSH, LH, AMH, TSH, Rubella, E2, Chlamydia and Gonorrhoea)	£180
Male Hormone Profile (FSH, LH, testosterone, Prolactin, TSH)	£100
Rubella	£40
HIV, Hep B antibodies, Hep B antigen, Hep C antibody	£125
Chlamydia and Gonorrhoea	£65
Chlamydia	£55
HIV	£40
Syphilis	£40
HTLV I&II	£50
Y-microdeletion	£175
Hep B surface antigen	£40
Hep B core antibody	£40
Hep C antibody	£40
Karyotype (chromosomes)	£280
Cystic Fibrosis	£170
CMV	£45
Miscarriage screen	£720
Beta hCG	£40

REFUND INFORMATION

Unfortunately, it is sometimes necessary to discontinue treatment for medical reasons. Depending on the stage of treatment at cancellation, a partial refund may be due.

Details of the cancellation fees are in the table below.

CANCELLATION FEES

Cancelled IVF or ICSI cycle before medication is started	£250
Cancelled IVF or ICSI cycle after one treatment scan	£450
Cancelled IVF or ICSI cycle before egg collection	£900
Abandoned IVF or ICSI cycle due to failed fertilization of eggs*	£3,000
Abandoned IVF or ICSI cycle after fertilization but before embryo transfer*	£3,400
Abandoned IVF or ICSI egg thaw cycle due to failed fertilization of eggs*	£2,600
Abandoned IVF or ICSI egg thaw cycle after fertilization but before embryo transfer*	£3,000
Cancelled IUI cycle prior to insemination	£350
Cancelled FER cycle before medication is started	£100
Cancelled FER cycle prior to embryo transfer	£350
Cancelled PGS or PGD after biopsy	£1,500

* Plus fees for ICSI, PGS/PGD or other procedures already completed.

If an IVF or ICSI cycle is interrupted prior to embryo transfer on the recommendation of a member of the medical team, the embryos will be frozen. There will be no charge to the patient for freezing the embryos and the first three months' storage.

Payment will be required for any subsequent frozen replacement cycles.
